2019
REHABILITATION SCIENCE

Time Allowed : 3 Hours]

[Maximum Marks : 300

Read the following instructions carefully before you begin to answer the questions.

IMPORTANT INSTRUCTIONS

1. The applicant will be supplied with Question Booklet 15 minutes before commencement of the examination.
2. This Question Booklet contains 200 questions. Prior to attempting to answer, the candidates are requested to check whether all the questions are there in series and ensure there are no blank pages in the question booklet. **In case any defect in the Question Paper is noticed, it shall be reported to the Invigilator within first 10 minutes and get it replaced with a complete Question Booklet. If any defect is noticed in the Question Booklet after the commencement of examination, it will not be replaced.**
3. Answer all questions. All questions carry equal marks.
4. You must write your Register Number in the space provided on the top right side of this page. Do not write anything else on the Question Booklet.
5. An answer sheet will be supplied to you, separately by the Room Invigilator to mark the answers.
6. You will also encode your Question Booklet Code with Blue or Black ink Ball point pen in the space provided on the side 2 of the Answer Sheet. If you do not encode properly or fail to encode the above information, action will be taken as per Commission's notification.
7. Each question comprises *four* responses (A), (B), (C) and (D). You are to select **ONLY ONE** correct response and mark in your Answer Sheet. In case you feel that there are more than one correct response, mark the response which you consider the best. In any case, choose **ONLY ONE** response for each question. Your total marks will depend on the number of correct responses marked by you in the Answer Sheet.
8. In the Answer Sheet there are **four** circles (A), (B), (C) and (D) against each question. To answer the questions you are to mark with Blue or Black ink Ball point pen **ONLY ONE** circle of your choice for each question. Select one response for each question in the Question Booklet and mark in the Answer Sheet. If you mark more than one answer for one question, the answer will be treated as wrong. *e.g.* If for any item, (B) is the correct answer, you have to mark as follows :

(A) ● (C) (D)
9. You should not remove or tear off any sheet from this Question Booklet. You are not allowed to take this Question Booklet and the Answer Sheet out of the Examination Hall during the time of examination. After the examination is concluded, you must hand over your Answer Sheet to the Invigilator. You are allowed to take the Question Booklet with you only after the Examination is over.
10. **Do not make any marking in the question booklet except in the sheet before the last page of the question booklet, which can be used for rough work. This should be strictly adhered.**
11. Applicants have to write and shade the total number of answer fields left blank on the boxes provided at side 2 of OMR Answer Sheet. An extra time of 5 minutes will be given to specify the number of answer fields left blank.
12. Failure to comply with any of the above instructions will render you liable to such action or penalty as the Commission may decide at their discretion.

SEAL

SPACE FOR ROUGH WORK

1. Loss of a limb or a faculty is known as
(A) Disability (B) Impairment
(C) Handicap (D) Abnormality
2. If a child has a form of Cerebral Palsy (CP) which causes his legs to be stiff, tight and difficult to move, then the condition 'Disability' means
(A) inability to walk
(B) inability to move the legs easily at the joints
(C) inability to bear weight on the feet
(D) not able to play with other children
3. The International Classification of functioning, disability and health (ICF) was published by
(A) WHO (B) UNICEF
(C) UNESCO (D) UNCRPD
4. A student with intellectual disability
(A) learns and understands at a much slower pace than the average peers
(B) is often a visual learner
(C) is usually an auditory learner
(D) can learn like his/her peer group in regular class
5. Disorders of mood or feeling states either short or long term are categorised as
(A) Cognitive Disabilities (B) Psychological disorders
(C) Physical impairments (D) Sensory disabilities
6. Inability to communicate in classroom can be very challenging for a student with
(A) Speech and Language disorder (B) Locomotor disability
(C) Visual impairment (D) Learning disability

7. The expansion of CBR is

- (A) Community Based Resources
- (B) Community Based Rehabilitation
- (C) Communication Based Resources
- (D) Committee Based Rehabilitation

8. Which of the following is an non-optical aid for Low Vision Children?

- (A) Electronic Magnifier
- (B) Telescopes
- (C) Reading glasses
- (D) Large print

9. Corrective lens for myopia is

- (A) concave
- (B) convex
- (C) cylindrical
- (D) spherical

10. The image focussed in front of the retina is known as

- (A) Myopia
- (B) Hyperopia
- (C) Presbiopia
- (D) Astigmatism

11. Braille consists of _____ dots

- (A) 5
- (B) 6
- (C) 12
- (D) 63

12. Redness, itching, tearing and irritation of eyes are the symptoms of
(A) Albinism (B) Nystagmus
 (C) Trachoma (D) Cataract
13. The increase of intra ocular pressure leads to
(A) Diabetes Mellitus (B) Trichiasis
(C) Trachoma (D) Glaucoma
14. Night Blindness is caused by
 (A) Vitamin A deficiency (B) Vitamin B deficiency
(C) Vitamin C deficiency (D) Vitamin K deficiency
15. Snellen chart is used to measure
(A) Field of vision (B) Visual acuity
(C) Colour vision (D) Contrast Sensitivity
16. Visual acuity of a low vision is
(A) 6/60 (B) <6/18
(C) 20/200 (D) >6/18
17. Conjunctivitis is also known as
(A) Dry eye (B) Eye fatigue
 (C) Pink eye (D) Uveitis
18. A map on which information is perceptible to touch
(A) Physical map
(B) Topographical map
 (C) Tactile map
(D) Resource map

19. One of the characteristics of children with hearing impairment is
- (A) Using finger as a line marker while reading
 - (B) Excessive rubbing of eyes
 - (C) Undue sensitivity to light
 - (D) Fails to develop language unlike same age child
20. Amniocentesis is a technique used for early
- (A) assessment
 - (B) identification
 - (C) training
 - (D) intervention
21. Educating anganwadi workers for the purpose of creating awareness about
- (A) Causes of disabilities
 - (B) Assistive devices
 - (C) Management of differently abled old age people
 - (D) Technological development in education
22. "Eliminates the occurrence of the problem in the individual and reduces the prevalence in the community" is referred to as _____ prevention.
- (A) Primary
 - (B) Secondary
 - (C) Tertiary
 - (D) Acquired
23. One of the signs and symptoms of hearing loss is
- (A) Frequently asking others to speak more slowly, clearly and loudly
 - (B) Unable to participate in cultural activities
 - (C) Avoidance of cultural settings
 - (D) Difficulty in understanding of rhymes, story

24. 41 dB to 60 dB in better ear level is referred to as _____ degree of hearing loss.
- (A) Mild (B) Moderate
(C) Moderately severe (D) Severe
25. Less than 40% in better ear, is the speech recognition level of _____ hearing loss.
- (A) Moderate (B) Moderately severe
(C) Severe (D) Profound
26. Children classified as learning disabled or slow learners may have this type of hearing loss.
- (A) Sensory (B) Mixed
(C) Central (D) Functional
27. Combination of conductive and sensory neural hearing loss is known as _____ hearing loss.
- (A) Congenital (B) Acquired
(C) Mixed (D) Combined
28. "Loss of sixty decibels or more in the better ear in the conversational range of frequencies" is referred to as
- (A) Hearing Impairment (B) Hearing Loss
(C) Hearing Disorder (D) Loss of Hearing
29. _____ development refers to the physical changes in the size, structure and proportion of the parts of the body, that take place from the moment of conception.
- (A) Physical (B) Emotional
(C) Social (D) Mental

30. Expand AAMR
- (A) American Association of Mentally Challenged
 - (B) American Association of Mental Retardation
 - (C) American Association for Mental Illness
 - (D) American Association for Mental Rehabilitation
31. The most common symptom of Mental Retardation is
- (A) Speech Problem
 - (B) Social Problem
 - (C) Developmental Delay
 - (D) Communication Problem
32. Expand NTA
- (A) National Teaching Act
 - (B) National Trading Act
 - (C) National Trust Act
 - (D) National Technology Act
33. It is one of the scheme under National Trust
- (A) RCI
 - (B) Nirmaya
 - (C) RTE
 - (D) SSA
34. It means any mental disorder other than mental retardation
- (A) Locomotors Disability
 - (B) Mental Illness
 - (C) Down Syndrome
 - (D) Epilepsy

35. _____ is the accumulation of an abnormal amount of cerebrospinal fluid within the cranium, which causes damage to the brain tissues and enlargement of the cranium.

- (A) Micro-cephaly
(C) Trisomy 21
 (B) Hydrocephalus
(D) Macro-cephaly

36. Match List I with List II and select the correct answer using the codes given below the lists :

- | List I | | List II | |
|-----------------|--|-----------------------|--|
| (a) Mild MR | | 1. Trainable | |
| (b) Moderate MR | | 2. Dependent retarded | |
| (c) Severe MR | | 3. Life support | |
| (d) Profound MR | | 4. Educable | |

- | | (a) | (b) | (c) | (d) |
|---|-----|-----|-----|-----|
| (A) | 1 | 2 | 3 | 4 |
| <input checked="" type="checkbox"/> (B) | 4 | 1 | 2 | 3 |
| (C) | 3 | 1 | 2 | 4 |
| (D) | 4 | 3 | 2 | 1 |

37. _____ provides a dramatic illustration of mental retardation resulting from endocrine imbalance.

- (A) Turner's syndrome
(C) Tay-Sach's syndrome
 (B) Cretinism
(D) Klinefelter's syndrome

38. Children born prematurely weighing less than _____ grams at birth reveal a high incidence of neurological disorders, including mental retardation.

- (A) 1000
(C) 1400
(B) 1750
 (D) 1500

39. Expand AAMD

- (A) American Association for Multiple Disabilities
(B) American Association on Motor Disability
 (C) American Association on Mental Deficiency
(D) American Association for Mental Health Deficiency

40. It is characterised by a slow growing, bone destructive lesion located near one end of the shaft of a bone.

- (A) Scoliosis
(C) Fibromyalgia
 (B) Bone cysts
(D) Bursitis

47. These prosthetics are used for joint replacement.
- (A) Peripheral (B) Exterior
 (C) Internal (D) External
48. An appliance which is added to the patient to enable better use of a body part is a/an
- (A) Orthotics (B) Prosthetics
 (C) Optics (D) Esthetic
49. Xenophobia means _____
- (A) fear of heights (B) fear of water
 (C) fear of strangers (D) fear of open places
50. This therapy is more effective in treating both phobic and obsessive-compulsive disorder
- (A) Exposure (B) Implosive
 (C) Cognitive behavioral (D) Cognitive
51. Bulimia Nervosa is
- (A) Sleep disorder (B) Eating disorder
 (C) Skill disorder (D) Thinking disorder
52. Belief that one is being malevolently or unfairly treated in some way, is the _____ type of delusions.
- (A) Persecutory (B) Somatic
 (C) Erotomaniac (D) Grandiose
53. One of the positive symptoms of schizophrenia is
- (A) Delusious (B) Flat affect
 (C) Poverty of speech (D) No energy

54. This is a persistent or recurrent painful sexual intercourse due to medical or psychological causes
- (A) Fibromyalgia (B) Rosacea
 (C) Dyspareunia (D) Scleroderma
55. Warning signs of teenage drug or alcohol abuse is
- (A) a drop in school performance
(B) remaining Aloof
(C) behavioral disorder
(D) contact disorder
56. A person with sociopathic disorder may shows _____ behavior.
- (A) relaxed (B) submissive
 (C) aggressive (D) fearful
57. This is characterized by persistent deficits in social interaction and communication in multiple life areas as well as restricted and repetitive patterns of behaviors
- (A) ADHD (B) ASD
(C) OCD (D) ECT
58. Bipolar disorder is otherwise known as _____ illness.
- (A) Manic-depressive (B) Social anxiety
(C) Chilblains (D) Coeliac
59. Beliefs that conflict with reality is referred to as _____
- (A) Delusions (B) Compulsions
(C) Obsessions (D) Trypophobia

60. The type of walker which enables to stabilize the trunk
- (A) Suspension walkers
 - (B) Two wheeled walkers
 - (C) Chest-support walkers
 - (D) Four wheeled walkers
61. Comorbid factors of cerebral palsy include autism and
- (A) Speech disorder
 - (B) Language disorder
 - (C) ADHD
 - (D) Epilepsy
62. Motor planning difficulties known as motor _____ are common with CP
- (A) dyspraxia
 - (B) dyslexia
 - (C) dyscalculia
 - (D) asphyxia
63. One of the digestive diseases in which stomach acid is regurgitated into the esophagus
- (A) dysphagia
 - (B) apraxia
 - (C) gastroesophageal reflux disease
 - (D) pneumonia
64. Hypotonic Cp causes diminished muscle tone and overly _____ muscles
- (A) stiff
 - (B) strong
 - (C) relaxed
 - (D) weak

65. In spastic children lesion will be seen in
 (A) Cortex (B) Basal ganglia
(C) Cerebellum (D) Cerebrum
66. Uncontrolled movement are seen in _____ of cerebral palsy.
(A) Spastic (B) Ataxic
 (C) Athetoid (D) Rigidity
67. Damage or faulty development of certain areas in the brain affects the brain's ability to control movement and
(A) Co-ordination (B) Function
 (C) Posture (D) Dexterity
68. This therapy is focussed on an evidence based practice deeply rooted in science
(A) speech (B) language
(C) communication (D) occupation
69. Children to use their bodies to communicate is known as
 (A) Unaided form of AAC
(B) Aided form of AAC
(C) Maternal Reflective Method
(D) Auditory Verbal Method
70. One of the early sign of cerebral palsy is
 (A) Abnormality in motor behaviour
(B) Impulse control
(C) Poor concentration
(D) Low self-esteem

71. Children with specific mutation involving the dopamine system were more likely to exhibit ADHD if their mothers _____ during pregnancy.
- (A) drink (B) stressed
 (C) smoked (D) inattentive
72. ADHD is considered to be highly influenced by
- (A) bipolar disorder (B) genetics
(C) personality disorder (D) behavioural disorder
73. In ADHD the symptoms of inattention, impulsivity and hyperactivity become increasingly obvious during
- (A) school years (B) adulthood
(C) teenage (D) adolescence
74. According to Taylor (2012) the best data suggest, that from 3% to 9% of the world wide population currently meet the criteria for ADHD that interferes with their
- (A) performance (B) quality of life
(C) current status (D) family life
75. Acting apparently without thinking is a common complaint made about people with this disorder
- (A) Autism Spectrum Disorder
(B) Intellectual Disability
 (C) Attention deficit hyperactive disorder
(D) Muscular dystrophy
76. The type of autistic children who lose various functions and skills they had acquired earlier is
- (A) Rett's disorder
(B) Childhood disintegrative disorder
(C) Asperger's disorder
(D) Pervasive developmental disorder

77. It refers to the ability to attribute mental states such as desire, knowledge, and belief to oneself or other people as a way of explaining behaviour
- (A) Executive functions (B) Theory of mind
(C) Neuro Psychology (D) Behavioural functions
78. Autism was first described in 1943 by
- (A) Asperger (B) Leo Kanner
(C) Siegel (D) Lovaas
79. One of the most striking features of people with ASD is their unusual reactions to
- (A) other people (B) peers
(C) parents (D) sibling
80. Occurance of mutation in the sperm of father or the eggs of mothers is known as
- (A) genetic disorder
 (B) de novo mutation
(C) gene mutation
(D) neuro chemical changes
81. In general, social deficiencies are the primary distinguishing characteristics of people with
- (A) ASD (B) CP
(C) ADHD (D) ID
82. Self concept may be lacking when people with ASD also have
- (A) Neuro developmental disabilities
 (B) Cognitive disabilities
(C) Intellectual disabilities
(D) Multiple disabilities

83. Multiple disabled children can take part in play
- (A) Yes
 - (B) No, it is dangerous
 - (C) Yes, with due adaptations
 - (D) Depends upon individuals
84. NCF 2005 spells
- (A) Integrated curriculum
 - (B) Inclusive curriculum
 - (C) Individualistic curriculum
 - (D) Irrational curriculum
85. CCE shall be suitable
- (A) in inclusive schools
 - (B) in special schools
 - (C) to introduce by the subject teacher
 - (D) at all educational places
86. When a child with a multiple disability is admitted in a regular school
- (A) the child should adjust to the system
 - (B) inclusive school should provide separate room and special teacher
 - (C) the school should upgrade its system to support the child
 - (D) inclusive school should provide a part of service to children with multiple durability
87. Multiple sclerosis is a
- (A) single disability
 - (B) multiple disability
 - (C) sensori disability
 - (D) cognitive disability

88. Use of psycho stimulants technique is used for _____
- (A) Specific language impairment
 - (B) Attention Deficit Hyper activity disorder
 - (C) Stuttering
 - (D) Laryngectomee
89. This may help in prevention of infection in ear
- (A) Taking prompt treatment for ear infection
 - (B) Pouring oil in ears for cleaning wax
 - (C) Avoid smoking and alcohol
 - (D) Never speak at a fast rate with child
90. It is related with the taste of minimizing the loss through medical procedures.
- (A) Corrective intervention
 - (B) Preventive intervention
 - (C) Compensatory intervention
 - (D) Remedial intervention
91. This is a type of spina bifida birth defect of the back bone.
- (A) Meningocele
 - (B) Mesothelioma
 - (C) Labyrinthitis
 - (D) Gastroenteritis
92. This syndrome cause mental impairments and physical deficits
- (A) Klinefelter syndrome
 - (B) Turner's syndrome
 - (C) William syndrome
 - (D) Cat cry syndrome
93. This therapy helps in improving control and coordination of different structures used for verbal mode.
- (A) Language therapy
 - (B) Speech therapy
 - (C) Auditory therapy
 - (D) Physiotherapy

94. RCI collaborates with _____ to ensure adequate numbers of teachers are trained in inclusive education.
- (A) NCERT
 - (B) NCTE
 - (C) UGC
 - (D) State Governments
95. Modifying the examination system for the students with disabilities is ensured by
- (A) RTE Act
 - (B) RTI Act
 - (C) PWD Act
 - (D) National Trust Act
96. This ministry is given the responsibility of providing educations for the “weak and vulnerable” sections of society.
- (A) Education
 - (B) Social Welfare
 - (C) Social Justice
 - (D) HRD
97. Who recommended ‘Inclusive education as a cheap alternative’ to other special education programmes in 1970?
- (A) WHO
 - (C) UNESCO
 - (B) UN
 - (D) India
98. Accrediting training centers is the responsibility of
- (A) RCI
 - (B) NCTE
 - (C) NCERT
 - (D) UGC

99. The first model of rehabilitation is
- (A) Charity (B) Radical
(C) Social (D) Human Rights
100. This model of rehabilitation assumes society is the problem for the disabled person
- (A) Individual model (B) Social model
(C) Medical model (D) Human Rights model
101. In community based rehabilitation, this professional role is critical
- (A) CBR coordinator (B) CBR supervisor
 (C) CBR field worker (D) Parents of disabled persons
102. Limitation in participation is termed as
- (A) Impairment (B) Disability
(C) Activity limitation (D) Handicap
103. Which one of the following is a myth about visual impairment?
- (A) Legal blindness is an impairment in BOTH eyes
(B) A person with low vision may use a white cane in specific situations
(C) Most of the individuals with low vision use larger fonts for reading
 (D) People with visual impairment cannot live independently
104. Which one of the following is a myth about hearing loss?
- (A) Hearing loss can be prevented
(B) Hearing loss affects language development
(C) Hearing loss is an invisible disability
 (D) Hearing impaired person cannot be trained to speak
105. If a child is born with some disability in a family, the attitude of the family should be
- (A) Mother is responsible for the birth of a child with disability
(B) Mother of the child should take care the child
 (C) The parents should have a balanced emotional response in the management of the child
(D) The parents can leave the responsibilities to the grand parents in managing the child

106. _____ is the actual number of cases alive, with the disability during a particular period of time.
- (A) Rate (B) Proportion
 (C) Prevalence (D) Incidence
107. Disability is a developmental issue because of its bi-directional link to
- (A) Social (B) Cultural
 (C) Poverty (D) Race
108. The disabilities that are not immediately apparent to others are
- (A) Visual Impairment (B) Hearing Impairment
(C) Locomotor disability (D) Deaf blindness
109. In the contemporary bio-centric model of disability
- (A) People with disabilities are isolated
 (B) Disability is regarded as a medical or genetic condition
(C) Entitlement to rights is differentiated according to judgements of individual incapacity
(D) Disability is considered as an important dimension of human culture
110. Which one of the following is NOT the principles of Human Rights model?
- (A) Acceptance of disability as a part of human diversity
(B) Breaking down barriers
 (C) Marginalisation of people with disabilities
(D) Equality and non-discrimination
111. In a _____ school, a resource room and a resource teacher are available to support and cater to the needs of special children.
- (A) Special (B) Integrated
(C) Inclusive (D) General

112. It is a software program that enable a visually impaired user to read the text that is displayed on the computer screen
- (A) Magic (B) WIN
 (C) JAWS (D) Zoom text
113. Transmission of blind literature packets both inland and foreign is
- (A) Actual fare (B) Extra fare
 (C) Concessional fare (D) Exempt from payment
114. National Institute for the Empowerment of persons with Visual Disabilities (Divyangjan) is located in
- (A) Secunderabad (B) Mumbai
 (C) New Delhi (D) Dehradun
115. A visual field defect that involves a loss of peripheral vision
- (A) Distance Vision (B) Tunnel Vision
(C) Central Visual loss (D) Blurred Vision
116. The standard visual acuity of a person expressed in meters is
- (A) 6/60 (B) 6/18
 (C) 6/6 (D) 6/5
117. All the students are equal participants in the learning process is
- (A) Inclusion (B) Integration
(C) Main stream (D) A part of inclusion

118. The lazy eye is otherwise known as

- (A) Amblyopia
- (B) Strabismus
- (C) Nystagmus
- (D) Albinism

119. BERA is stands for

- (A) Brainstem evoked response audiometry
- (B) Behaviour evaluation of repetitive attitude
- (C) Brainstem evaluation of response audiometry
- (D) Behavioural evoked response audiometry

120. This audiometry is helpful in determining types and severity of hearing loss

- (A) Pure tone audiometry
- (B) Immittance
- (C) BERA
- (D) OAET (Oto Acoustic Emission Test)

121. The inner ear contains the cochlea and the _____ canals

- (A) ear
- (B) external auditory
- (C) internal auditory
- (D) semi circular

122. The branch of science and medicine concerned with the sense of hearing is known as

- (A) Audiogram
- (B) Audiologist
- (C) Audiology
- (D) Audio device

123. Partial or complete closure of the ear canal is known as
(A) Atonia (B) Atresia
(C) Otosclerosis (D) Presbycusis
124. "Minimizing the disability or at least mitigating some of its effects", is the main aim of _____ prevention.
(A) Primary (B) Secondary
 (C) Tertiary (D) Congenital
125. The inner ear function is
(A) Hearing and Conduction (B) Hearing and Balancing
(C) Hearing and Interpretation (D) Hearing and Stimulating
126. UNCRPD was launched in the year
(A) 2005 (B) 2006
 (C) 2007 (D) 2008
127. One of the post natal causes for hearing impairment is
(A) Syphilis (B) Hypoglycemia
(C) Asphyxia (D) Meniere's disease
128. Listening to loud noise for long periods of time can damage the _____ in the inner ear.
(A) Pinna (B) Ear canal
(C) Stapes (D) Hair cells
129. This is a disease condition in the middle ear
(A) Menieres (B) Ototoxic
 (C) Otosclerosis (D) Acoustic Neuroma

135. Children with MR are capable of developing social and _____ skills.
- (A) Emotional (B) Cultural
 (C) Communication (D) Learning
136. Children with Mental Retardation cannot express clearly their thoughts, needs and
- (A) ideas (B) desires
 (C) decisions (D) feelings
137. Children with Mild Mental Retardation require some measure of supervision due to limited ability to foresee the consequences of their actions. True or False?
- (A) False (B) Partially True
 (C) True (D) None of the above
138. Choose the correct answer from the codes given below :
- Assertion : Operant conditioning methods are being used increasingly to teach children with mental retardation.
- Reason : Training that builds on step-by-step progression lead to substantial progress in MR children
- (A) Both Assertion and Reason are incorrect
 (B) Both Assertion and Reason are correct
 (C) Assertion is wrong, Reason is correct
 (D) Assertion is correct, Reason is wrong
139. In _____ there is an increase in the size and weight of the brain, an enlargement of the skull.
- (A) Macro-cephaly
 (B) Micro-cephaly
 (C) Hydrocephalus
 (D) Down Syndrome

140. It is a disorder in which a child suffers from the flattening of the head of the femur or hipbone.
- (A) Clubfoot (B) Osteomyelitis
 (C) Legg-Calve perthes disease (D) Limb deficiencies
141. One of the symptom of osteomyelitis is
- (A) Loss or decrease of motion of a joint
(B) Lack of correct physical posture
(C) Crossed legs
(D) Slowed or unusual movements
142. Poliomyelitis is otherwise known as
- (A) Polymyalgia Rheumatica (B) Infantile Paralysis
(C) Psoriasis (D) Psoriatic Arthritis
143. People with this muscular dystrophy have difficulty in walking and are often bound to the wheel chair by the age of 20.
- (A) Duchenne (B) Becker
 (C) Limb-girdle (D) Myotonic
144. This disease is caused due to the interference of abnormal genes in the formation of proteins required for muscle formation.
- (A) Muscular dystrophy (B) Fibromyalgia
(C) Bursitis (D) Scleroderma
145. This is an infection of bone "Infection of the bone" is referred to as
- (A) Osteosarcoma (B) Osteomyelitis
(C) Osteoarthritis (D) Osteonecrosis
146. "Disability of the bones, joints muscles leading to substantial restriction of the movement of the limbs" is known as
- (A) Locomotors Disability
(B) Amputation
(C) Person with Disability
(D) Institution for persons with disabilities

147. Morning Stiffness is the characteristic feature of
- (A) Rickets (B) Rheumatoid Arthritis
(C) Cerebral Palsy (D) Inflammatory disease
148. Early detection and treatment of the disease is a
- (A) Primary Prevention (B) Secondary Prevention
(C) Tertiary Prevention (D) Disability Management
149. Action taken prior to the onset of the disease/disability is known as
- (A) Primary Prevention (B) Secondary Prevention
(C) Tertiary Prevention (D) Awareness
150. Continuous Comprehensive Evaluation need not be adapted for children with
- (A) locomotor disability (B) disability at lower extremities
(C) cognitive disabilities (D) sensori disabilities
151. The PWD Act (1995), emphasizes the provision for successful inclusion of students with locomotor disability by
- (A) restructuring of curriculum
 (B) removal of architectural barriers from schools
(C) conducting part-time classes
(D) imparting education through open schools
152. In functional assessment, _____ mode of testing is employed to study the voluntary contraction performed at a specified joint angle.
- (A) Prosthetics (B) Orthotics
 (C) Isometric (D) Orthotopic

153. These programs are often used to help survivors deal with the impact of the suicide of a member of their group.
- (A) Suicide contagion
 - (B) Parasuicide
 - (C) Cognitive-behavioral therapy
 - (D) Postvention
154. This kind of biologically based treatments are often successful in lessening depression.
- (A) Electroconvulsive therapy
 - (B) Interpersonal Psycho therapy
 - (C) Cognitive behavioral therapy
 - (D) Psycho Analytical therapy
155. Avoidant Personality Disorder is characterized by low
- (A) Self acceptance
 - (B) Self motivation
 - (C) Self disclosure
 - (D) Self esteem
156. One of the major clinical features of anxious or fearful behavior is
- (A) Social deficit
 - (B) Poor prognosis
 - (C) Social and interpersonal instability
 - (D) Good response to therapy
157. A persistent impairment of sexual interest or response is called
- (A) Fetishism
 - (B) Sexual Victimization
 - (C) Sexual Dysfunction
 - (D) Sexual Sadism

158. This is a chronic, severe, debilitating mental illness
- (A) Dementia (B) Amnesia
(C) Anorexia (D) Schizophrenia
159. "Sitting or standing in the same position for prolonged time" is the one of characteristics of
- (A) Mental retardation
 (B) Mental illness
(C) Autism Spectrum Disorder
(D) Pervasive developmental disorder
160. Mental illnesses are associated with _____ in social, work or family activities.
- (A) Distress (B) Physical sickness
(C) Hallucination (D) Submissive
161. Mental disorders leading to disability
- (A) Schizophrenia (B) ASD
(C) Dementophobia (D) Munchausen syndrome
162. Delirium is a cognitive disorder otherwise known as
- (A) Acute Confusional state (B) Dolusions
(C) Hallucinations (D) Obsessive-Compulsive disorder
163. The instrument often used to measure and describe children's capabilities and independence in performing daily activities is
- (A) manual ability classification system
 (B) pediatric evaluation of disability inventory
(C) gross motor function classification
(D) diagnostic and statistical manual of mental disorder

164. The main clues that a cerebral palsy child might have

- (A) developmental delays
- (B) cognitive delay
- (C) delay in social skills
- (D) deficits in adaptive behavior

165. Symptoms of cerebral palsy usually appear before a child reaches age

- (A) 4
- (B) 5
- (C) 2
- (D) 6

166. Damage in the motor cortex affects the nervous system's ability to receive

- (A) thimerosal
- (B) phenylephrine
- (C) gamma aminobutyric acid
- (D) acetylcholine

167. Mixed muscle tone is seen in _____ type of cerebral palsy

- (A) Hemiplegia
- (B) Diplegia
- (C) Quadriplegia
- (D) Athetoid

168. People with quadriplegia are the least likely to be able to walk because their muscles are

- (A) too tight
- (B) too weak
- (C) too strong
- (D) too flacid

169. The type of cerebral palsy in which one side of body being affected

- (A) Diplegia
- (B) Hemiplegia
- (C) Quadriplegia
- (D) Ataxic

170. This type of cerebral palsy caused by the damage to the cerebellum or basal ganglia
- (A) Mixed (B) Ataxic
 (C) Dyskinetic (D) Spastic
171. In this subtype of spastic cerebral palsy, only one limb on one side of the body of the child is affected
- (A) Spastic monoplegia
(B) Spastic diplegia
(C) Spastic hemiplegia
(D) Spastic quadriplegia
172. Some repeat the speech of others, a pattern called
- (A) Hemophilia (B) Dyscalculia
 (C) Echolalia (D) Pedophilia
173. Psychopharmacogenetics is the study of how your genetic makeup influences response to certain
- (A) drugs (B) materials
(C) problems (D) task
174. Important component in psychosocial intervention for children with ADHD is
- (A) DLC training
 (B) Social skill training
(C) Communication training
(D) Behavioural training

175. Children with Asperger's disorder do significantly better on verbal sections of intelligence test than on _____ sections.

- (A) performance (B) communication
(C) social (D) personal

176. Self injury and other types of undesirable behaviour can be significantly reduced if the child can learn _____ strategies.

- (A) communication
(B) adaptive behaviour
(C) social skill training
(D) behaviour modification

177. Behavioural training and _____ often and jointly are currently the most common treatment approaches

- (A) medications (B) therapy
(C) interrention (D) counselling

178. Areas of surprising talent in otherwise low functioning individuals is known as

- (A) Cognitive abilities
 (B) Savant abilities
(C) Distinct abilities
(D) Unusual abilities

179. Executive functions are cognitive operations directed by

- (A) Temporal lobe (B) Occipital lobe
 (C) Prefrontal cortex (D) Parital lobe

180. Historically ASD was seen as the result of
- (A) Child rearing practices
 - (B) Perfectionistic
 - (C) High socio economic status
 - (D) Failed parenting
181. It is estimated that approximately 38% of individuals with ASD have
- (A) Visual impairment
 - (B) Learning impairment
 - (C) Intellectual disabilities
 - (D) Speech disorder
182. Individuals with the less severe forms of ASD may also lack appropriate facial expressions or tone of voice also known as
- (A) Muscular dystrophy
 - (B) Prosody
 - (C) Retinopathy
 - (D) Ecolalia
183. Communication board is suitable for children with
- (A) Language disorder
 - (B) Cerebral palsy
 - (C) Dyslexia
 - (D) Dysgraphia
184. Parents of children with disability need
- (A) Counselling for depression
 - (B) Guidance for education
 - (C) Support
 - (D) Reference to services of this individualistic need

185. Education of the multiple disabled is
- (A) difficult
 - (B) possible through appropriate special educational means
 - (C) possible only if the severity is mild
 - (D) possible if started below the age of 4
186. An apex body of parents associations is
- (A) Parents Association of MDA
 - (B) Parivaar
 - (C) Parents Association of Tamilnadu children with cerebral palsy
 - (D) Spastic society of Karnataka
187. IFSP in rehabilitation refers to
- (A) Individualised Family Service Plan
 - (B) Interactive Family Service Plan
 - (C) Individual Family Support Plan
 - (D) Interactive Family Support Project
188. Apgar test is helpful in identifying the disabilities during _____ stage.
- (A) prenatal
 - (C) postnatal
 - (B) perinatal
 - (D) neo natal
189. This test is used to detect the fetus for any defects and deformities in the child's body, head and spinalcord.
- (A) Magnetic Resonance Imaging
 - (B) Sonography
 - (C) Aminocentesis
 - (D) Apar Scoring test
190. Ear and other ear infections are the _____ cause of hearing impairment.
- (A) Prenatal
 - (C) Postnatal
 - (B) Perinatal
 - (D) Neonatal

191. 'Respect for Dignity and autonomy' is the guiding principle of _____ 2007.
- (A) UNCRPD (B) UPNCRD
(C) URCNPD (D) UDPNCR
192. Micro Credit Scheme is the initiative of
- (A) Ministry of HRD (B) SHG
 (C) NHFDC (D) NIEPMD
193. National Awards are given to outstanding employers of disabled to
- (A) Promote Empowerment of PWDs
(B) Bring in economic dependence
(C) Enjoy rights of PWDs
(D) Promote gender equality
194. Payment of postage for blind literature packets are
- (A) Fully exempted
(B) 50% reduction
(C) 75% of reduction
(D) Exempted if sent by Airpost
195. Ministry of Petroleum and Natural Gas has reserved dealership agencies of the public sector oil companies for
- (A) Hearing Impaired
(B) Visually Impaired
 (C) Physically Handicapped
(D) Mentally Retarded

196. This syndrome cause mental impairments, physical defects and language disabilities.
- (A) Villaret's syndrome
 - (B) Visual looming syndrome
 - (C) Velocardiofacial syndrome
 - (D) Vasoplegic syndrome
197. UN year of the disabled person
- (A) 1980
 - (B) 1981
 - (C) 1982
 - (D) 1983
198. Article _____ of the directive principles of the Indian Constitution states that it is the duty of the Government to provide all additional public assistance to the PWDs for their active participation in the society.
- (A) 45
 - (B) 44
 - (C) 42
 - (D) 41
199. The Rehabilitation Council of India (RCI) was founded by an Act of Indian Parliament in
- (A) 1992
 - (B) 1991
 - (C) 1990
 - (D) 1993
200. The goal of District Primary Education Programme (DPEP) was
- (A) "Education for All"
 - (B) "Education for PWD"
 - (C) "Inclusive Education"
 - (D) "Integrated Education"
