DO NOT TEAR THIS COVER OF THE QUESTION BOOKLET UNTIL YOU ARE ASKED TO DO SO

2011 SOCIAL AND PREVENTIVE MEDICINE

Register Number

Time Allowed: 3 Hours]

[Maximum Marks : 300

Read the following instructions carefully before you begin to answer the questions.

IMPORTANT INSTRUCTIONS

- 1. This Booklet has a cover (this page) which should not be opened till the invigilator gives signal to open it at the commencement of the examination. As soon as the signal is received you should tear the right side of the booklet cover carefully to open the booklet. Then proceed to answer the questions.
- 2. This Question Booklet contains 200 questions.
- 3. Answer all questions.
- 4. All questions carry equal marks.
- 5. You must write your Register Number in the space provided on the top right side of this page. Do not write anything else on the Question Booklet.
- 6. An Answer Sheet will be supplied to you separately by the Invigilator to mark the answers. You must write your Name, Register No. and other particulars on side 1 of the Answer Sheet provided, failing which your Answer Sheet will not be evaluated.
- 7. You will also encode your Register Number, Subject Code etc., with Blue or Black ink Ball point pen in the space provided on the side 2 of the Answer Sheet. If you do not encode properly or fail to encode the above information, your Answer Sheet will not be evaluated.
- 8. Each question comprises four responses (A), (B), (C) and (D). You are to select ONLY ONE correct response and mark in your Answer Sheet. In case you feel that there are more than one correct response, mark the response which you consider the best. In any case, choose ONLY ONE response for each question. Your total marks will depend on the number of correct responses marked by you in the Answer Sheet.
- 9. In the Answer Sheet there are four brackets [A][B][C] and [D] against each question. To answer the questions you are to mark with Ball point pen ONLY ONE bracket of your choice for each question. Select one response for each question in the Question Booklet and mark in the Answer Sheet. If you mark more than one answer for one question, the answer will be treated as wrong. e.g. If for any item, (B) is the correct answer, you have to mark as follows:

[A] [C] [D]

- 10. You should not remove or tear off any sheet from this Question Booklet. You are not allowed to take this Question Booklet and the Answer Sheet out of the Examination Hall during the examination. After the examination is concluded, you must hand over your Answer Sheet to the Invigilator. You are allowed to take the Question Booklet with you only after the Examination is over.
- 11. Failure to comply with any of the above instructions will render you liable to such action or penalty as the Commission may decide at their discretion.
- 12. Do not tick-mark or mark the answers in the Question Booklet.

1.	The	term 'Social medicine' was first intro	oduce	d by
	A)	Jules Guerin	B)	Alfred Grofjahn
	C)	Crew	D)	John Ryle.
2.	At	health centre, if the refrigerator	temp	erature is strictly kept between
	4-8	degree C, most vaccines (except poli-	o) can	be stored up to
	A)	2 weeks	B)	5 weeks
	C)	2 months	D)	5 months.
3.	Wh	ich one of the following branches stu	ıdies 1	the relationship between organisms
	and	environment?		
•	A)	Ergonomics	B)	Ecology
	C)	Emporiatrics	D)	Social physiology.
4.	The	study design where the population i	s the	unit of study is
	A)	Cross-sectional study	B)	Ecological study
	C)	Case control study	D)	Cohort study.
5.	All a	are intervention aimed at specific pro	tectio	n except
	A)	screening for diabetes	B)	use of helmets
	C)	avoidance of allergen	D)	chemoprophylaxis.
6.	The	following are true about prevalence	excep	t .
	A)	helps to estimate the magnitude of	diseas	se in the community
	B)	helps to plan hospital beds, manpo	wer n	eeds, etc.
	C)	helps to assess number of new case	es in a	defined population
	D)	helps to identify potential high risk	popu	lation.
7.	The	sensitive indicator of effectiveness of	f healt	th care is
	A)	IMR	B)	MMR
	C)	CBR	D)	CDR.
8.	The	term 'Anthropozoonosis' means		
	A)	infections transmitted to man from	vertel	orate animals
	B)	infections transmitted from man to	vertel	orate animals
	C)	infections maintained both in man	and	lower vertebrate animals in either
		direction		
	D)	infections transmitted from man to	invert	ebrate animals.
